MUHAMMAD ABDULLAH

Full Stack Software Engineer

+92 343 5921224 | alphabdullah07@gmail.com | linkedin.com/in/muhammad-abdullah-8b8898281 | github.com/AlphaAbdullah7

SUMMARY

Full Stack Software Engineer with **2+ years** of experience building web, mobile, desktop and AI apps with React, React Native, Electron, Node.js, Nest.js, Java, Spring Boot and AWS. Independently architected and shipped a **multi-tenant finance platform** end to end, including its AWS infrastructure and CI/CD, and built products for the US healthcare sector.

WORK EXPERIENCE

Insight Technology — Jan 2025 - Present

Software Engineer (Full Stack)

Insight Finance | React, Nest.js, PostgreSQL, AWS, CI/CD

- **Single-handedly architected** and shipped an in-house finance platform giving the company full control of its finance workflows, from PostgreSQL schema to Nest.js APIs and React UI.
- Independently set up the full **AWS infrastructure** (EC2, ECR, S3, SES, IAM, Secrets Manager) and owned the entire deployment process end to end, with containers and CI/CD pipelines.
- Designed it as a **multi-tenant** product, so multiple organizations run on a single deployment with their own data.

Internal Desktop Platform | Electron, React, LangGraph, REST APIs

- Developed features for a cross-platform Electron desktop application that integrates with enterprise backend servers via REST APIs.
- Worked on its **LangGraph-based AI assistant** that carries out multi-step operational tasks from natural-language requests.

Confidant Health | React, React Native, Node.js, Hapi.js, Java, Spring Boot, MongoDB, LangGraph

- Full stack engineer on Confidant Health's (US) live telehealth platform for appointments, serving **thousands of users**.
- Delivered features end to end across the React web app, React Native mobile app and Node.js/Java backend.
- Built LangGraph-powered AI features, and owned the Storybook upgrade during the React upgrade sprint.

Selfie | React, Java, Spring Boot, FHIR, Elasticsearch

- Full stack engineer on Selfie's (US) longitudinal patient record product, used by **thousands of users**.
- Built features on FHIR-standard health data with Elasticsearch-powered search across patient records.

Billfie | React Native, Firebase, Firestore, Realtime Database, Cloud Functions, AI

- Designed and built an income and expense tracker end to end, from the Firestore data model to Cloud Functions and UI.
- Added **AI receipt scanning** that turns a receipt photo into an income or expense record, plus groups and notifications.

Code Experts Ltd — Sep 2023 - Apr 2024

Front End Developer Intern

- Built responsive React.js and Next.js interfaces with Material UI, Tailwind CSS, Redux Toolkit and RTK Query.

PROJECTS

StyleZone | Personal Project | React Native, Tamagui, MongoDB

- Co-founded with a friend to bring Pakistan's salons online: customers book a slot with their preferred barber from home, while salons manage providers, slots and bookings.
- Built as a single cross-platform codebase with React Native and **Tamagui** that runs on web, iOS and Android.

Club Connect | Final Year Project | React.js, Node.js, Express.js, MongoDB, RTK Query

- Built end to end a sports session booking platform with real-time chat, online payments and QR ticketing.
- Developed a dedicated admin panel to manage users, bookings and publish updates and posts.

TECHNICAL SKILLS

Languages	JavaScript, TypeScript, Java, SQL
Frontend	React.js, Next.js, React Native, Electron, Redux, RTK Query, Tailwind, MUI, Tamagui, Storybook
Backend	Node.js, Nest.js, Express.js, Hapi.js, Java, Spring Boot, REST APIs, FHIR
Databases	PostgreSQL, MongoDB, Firebase (Firestore, Realtime Database, Cloud Functions), Elasticsearch
Cloud & DevOps	AWS (EC2, ECR, S3, SES, IAM, Secrets Manager), Docker, CI/CD, Git
AI	LangGraph, LLM integration, AI agents and assistants
Architecture	REST API design, database schema design, multi-tenant systems, containerized deployments

EDUCATION

Bachelor of Science in Software Engineering — Sep 2021 - Jun 2025

National University of Modern Languages (NUML) — **CGPA: 3.52 / 4.00**

ACHIEVEMENTS

- **1st Position**, IEEE Web Dev Competition • **2nd Position**, Final Year Project • Taught a MERN Stack course
